Redcentric London Technology Centre

Redcentric London Technology Centre is ideally located in Hounslow, London. It features the very latest cooling technologies, along with a fully redundant infrastructure, fully resilient network equipment, and rigorous security. This strategically designed facility offers organisations cost-effective ISO-certified hosting services.

Overview

- 195,000 sq. ft. of total facility space
- 130,000 sq. ft. of data centre space
- Highly resilient N+N or better redundancy
- Access to multiple communications providers
- Redcentric staff on-site 24/7/365
- Roof space for satellite communications
- Rest areas with comfort seating, kitchens and dining areas
- Meeting and conference rooms
- Fully concurrent maintainability with fault tolerance

Security

- 24/7/365 CCTV on-site monitoring and recording
- Intruder and door alarms with external infra-red detectors
- Security on-site 24/7/365
- Securely managed loading bay
- Proximity access control system

Cooling

- Minimum N+1 redundancy on the chilled water cooling system
- Temperature in data centre space maintained at (22°C +/- 2°C)
- Humidity maintained at 50% (+/- 10%)
- A & B diverse chilled water with automatic switchover

Power

- Two separate mains feeds from the utility provider
- Minimum N+1 redundancy of power to the data centre
- Diverse A & B supply to each cabinet, distributed via 11kV ring main units
- 35 UPS units across 9 UPS system locations, providing N+2 redundancy
- UPS supported by 4,600 batteries
- Diesel backup generators in a N+1 configuration
- 72 hours of fuel stored on-site for generators
- Emergency provisions in place for extra fuel

Fire protection

- Analogue addressable fire detection system in all areas (conforms to BS 6266)
- Early warning VESDA system in the plant and data centre
- Dry pipe, double knock sprinkler system controlled by pre-action valves in the data centre
- Inergen gas protection in the electrical plant room areas
